Fire Pipes

Fire Extinguishers

Zeta Alarm System

Nujum Alhuzm for Safety provides all types of pipes used in water network systems (sprinklers – sockets – rubber hoses – pump rooms ... etc.

- Above-ground pipes: solid pipes only
- Underground pipes: plastic or any non-rusting pipes

The nature of the application and the place of use is what determines the type of pipes and the best ones. In other words, the concept of product quality or efficiency is a relative standard that depends on the nature of use and the cost decided by the owner (efficiency = beneficiary / given)
