## What MealLink Does

MealLink is a unified B2B catering marketplace built for large-group and high-volume meal operations.

It connects organizers with verified kitchens using **smart supplier matching** based on key requirements such as **capacity, cuisine, and location**.

To keep execution reliable, MealLink supports the full workflow with **digital contracting & payments**, including **standardized SLAs, transparent pricing, and secure escrow payments** designed to reduce disputes and improve trust.

During fulfillment, teams get **real-time visibility** into preparation and delivery status, helping ensure **on-time service** and smoother coordination across all parties.
