Great

Wael Shahboun Business Hub Owner

"Stressful, impossible, difficult, overwhelming. It was honestly a hot mess. I would lose track of deadlines left and right and they would creep up on me at the last minute. My boss would ask me a question about a past project and I would struggle to hunt down my notes regarding it (because they were all in email). As hard as we tried to stay organized we had a hard time managing our projects and work flow. When dealing with PeoFree at our official website it was like getting lost in a giant corn maze."
